

George Biskos : "All the calculations I made for the ACP paper use a correct surface tension model. All the calculations therefore correct and the only mistake is a typo in the equation in Table 1. The 0.0234 factor should be 0.0177."

```
In[15]:=  $\sigma_{\text{aq}}[\text{m}[\text{wt}, 0.132]]$ 
```

```
Out[15]=  $0.072 + \frac{0.0177273 \text{ wt}}{100 - \text{wt}}$ 
```
