International Student Internship 300-level Research Course Description

Student Name:

Research Advisor:

Email Address:

Date Submitted:

Research Course Number:

Semester:

This form is for international students to indicate to SEAS and the Harvard International Office how what they will learn in an external internship will connect to their academic program through a project or other academic work in a 300-level research course. Due to visa rules, students who undergo an internship in spring or fall must enroll in the research course concurrently, while students who complete an internship in summer must enroll in a research course in the following fall semester. The research course is typically taken with the student's primary advisor, but need not be. *Note: GSAS enrollment rules preclude doing a full-time internship during fall or spring semester.*

Dates and Location of the internship:

Include the company or institution name and city/state. If possible, please attach a copy of your internship offer letter.

Provide a brief description of relevant work to be performed or skills to be learned during the internship:

Topic(s) to be covered in the research course:

Provide a brief outline of the goals of the research course, building on what you will learn in the internship. Use an additional page, if necessary.

Course materials or deliverables:

List texts, reading materials, and/or research articles that will be read, or outline experiments or other work that will be performed. Use an additional page, if necessary.

Field/Research Advisor (Signature)

Date

Research Course Supervisor, if different (Signature)
