The student provides written certification by an examining physician that the student’s health would be endangered by one or more of the immunizations. In this case, the student must submit laboratory evidence of immunity to measles, mumps, rubella, and varicella (chickenpox); if the student is not immune, the student will be excluded from classes in the event of an outbreak; OR

The student provides a signed written statement that the required immunizations would conflict with his or her religious beliefs. It is recommended that he or she present evidence of immunity through laboratory testing as above. Otherwise the student will be excluded from classes in the event of an outbreak. Please note: parents (including parents of minors) may not submit requests for religious exemptions on behalf of the student. The student must provide a signed statement on his or her own behalf.

FREQUENTLY ASKED QUESTIONS

What if I don’t submit a complete immunization record before I arrive at Harvard?

We strongly encourage you to receive any required immunizations before you arrive at Harvard, as many health insurance plans will cover the costs of immunizations. If you are unable to obtain these prior to your arrival on campus, you may arrange to get immunizations at various locations in the area. If you have not demonstrated compliance with Massachusetts and Harvard University immunization requirements by the deadline, you will be required to report to Harvard University Health Services (HUHS) for further instructions when you arrive at opening weekend check in; wait times are two hours or more.

What if I don’t have enough time to complete the full series of the MMR, Hepatitis B, or Varicella vaccinations?

For immunizations requiring more than one inoculation (such as measles, rubella, mumps, hepatitis B, and varicella), you must submit proof that you have begun the series and had as many of the inoculations (shots) as possible within the time frame/schedule specified on the Summer School Immunization Form. In this case, you are considered to be in compliance with the requirements for the current summer term.

My mother knows the dates I received my shots. Can she sign the form?

All immunization documentation and information must be certified by a health care provider or a medical records official. We cannot accept self-reported immunization information.

Can I submit a form from another school or from my Au Pair program instead of the Summer School Immunization Form?

You may submit alternate documentation such as a copy of your immunization records from another school you attended or a copy of your personal immunization card. This documentation MUST satisfy the following requirements:

- It must be in English.
- It must include the full dates of each immunization (i.e. month, day, and year).
- It must be certified by a health care provider or medical records official.
- It must demonstrate compliance with the Massachusetts and Harvard University immunizations regulations. Alternate documentation that does not fulfill these requirements will not be accepted.

What if my doctor does not know the exact date I received the shot or does not have record of it?

Without the full dates of your vaccinations (including month, day, and year), your immunization history does not comply with Massachusetts and Harvard University regulations and your documentation cannot be accepted. If you cannot provide documentation of each required immunization, there are several of the diseases for which you can have a blood test that will show whether or not you are immune to them (measles, mumps, rubella, hepatitis B, and varicella). You would need to provide the REU Program with the proof of such tests. For the diseases that do not allow blood tests, you must take the immunizations again and provide the proof.

Do I need to complete a whole new form to submit my additional/updated shot information?

You should submit a new form, but should include only the NEW information. Check the box marked, “I have new information to add to the form I submitted earlier this summer.” Lastly, the signature of your health care provider or medical records official cannot be earlier than the date of your most recent vaccination in order for your form to be accepted.

Please upload your immunization form as soon as possible and no later than Friday, May 26, 2017.

Please retain a copy for your own records.

GENDER

☑ Male  ☐ Female

Required immunizations: Please record the date of immunizations or blood tests. Please print clearly.

☒ This is the first time I am submitting this form this summer.
☒ I have new information to add to the form I submitted earlier this summer.

(Students: Please circle the information that is new. Do not resubmit this form unless you have new information.)

Measles–Mumps–Rubella (MMR). TWO immunizations on or after the first birthday, at least 1 month* apart, in 1967 or later (combined as MMR or separately)

First MMR: _____/_____/______ Second MMR: _____/_____/______

If administered separately, record below:

Measles (Rubeola). TWO immunizations as described above

First: _____/_____/______ Second: _____/_____/______

German Measles (Rubella). TWO immunizations as described above

First: _____/_____/______ Second: _____/_____/______

Mumps. TWO immunizations as described above

First: _____/_____/______ Second: _____/_____/______

Exemption from MMR immunization only if:

A positive serological test (titer) for immunity to any of the above diseases is acceptable instead of immunizations (a history of the disease is not acceptable):

Dates required: Pos MEASLES titer: _____/_____/______ Pos RUBELLA titer: _____/_____/______ Pos MUMPS titer: _____/_____/______

OR, if born in the US before 1957, check here: ☐

Varicella (Chickenpox).

TWO immunizations on or after the first birthday, at least 1 month* apart, on 01-MAR-1995 or later

First: _____/_____/______ Second: _____/_____/______

Exemption from Varicella immunization only if:

A positive serological test (titer) for immunity to Varicella or a certified history of the disease is acceptable instead of immunizations:

Dates required: Pos VARICELLA titer: _____/_____/______ OR Age at infection: _____ OR Date of disease: _____/_____/______

OR, if born in the US before 1980, check here: ☐

Tetanus–Diphtheria–Pertussis. One dose of “Td” on 01-JAN-2005 or later. Vaccine must be Adacel, Boostrix, or ADULT ACELLULAR pertussis booster. No other vaccines can be accepted.

First: _____/_____/______ Second: _____/_____/______

Hepatitis B. Three immunizations, the first and second of which must be at least 1 month* apart; the third must be at least two months* after the second and four months* after the first.

If Twinrix, check here: ☐

OR Positive serological test Positive Hepatitis B antibody: _____/_____/______

Meningococcal Disease. One immunization, within the last 5 years. Harvard requires this immunization for all students born after 01-JUL-1996 living in Summer School housing. Other students may waive this requirement by signing and submitting the waiver form (available from the Summer School website) along with this form.

First: _____/_____/______ Second: _____/_____/______

Strongly recommended test:

Tuberculosis. Please provide results of tuberculin skin test (TST). Include measurement in millimeters of the induration and indicate positive or negative diagnosis.

Induration size: _________ mm Date read: _____/_____/______ Diagnosis at time of reading: ☐ Positive ☐ Negative
