Commonwealth of Massachusetts and Harvard University regulations require students attending Summer School while on visas of any kind, including students who use the visa waiver program or similar entry programs established between the U.S. and other foreign countries, and all students (including US citizens) who will be living in Summer School housing to be immunized against certain communicable diseases. To comply, please have the 2015 Immunization Form completed by your health care provider or medical records official and upload it to the Embark application site.

The only circumstances under which a student may be exempted from these regulations are as follows:

- The student provides written certification by an examining physician that the student’s health would be endangered by one or more of the immunizations. In this case, the student must submit laboratory evidence of immunity to measles, mumps, rubella, and varicella (chickenpox); if the student is not immune, the student will be excluded from classes in the event of an outbreak; OR

- The student provides a signed written statement that the required immunizations would conflict with his or her religious beliefs. It is recommended that he or she present evidence of immunity through laboratory testing as above. Otherwise the student will be excluded from classes in the event of an outbreak. Please note: parents (including parents of minors) may not submit requests for religious exemptions on behalf of the student. The student must provide a signed statement on his or her own behalf.

Frequently Asked Questions

What if I don't submit a complete immunization record before I arrive at Harvard?

We strongly encourage you to receive any required immunizations before you arrive at Harvard, as many health insurance plans will cover the costs of immunizations. If you are unable to obtain these prior to your arrival on campus, you may arrange to get immunizations at various locations in the area. If you have not demonstrated compliance with Massachusetts and Harvard University immunization requirements by the deadline, you will be required to report to Harvard University Health Services (HUHS) for further instructions when you arrive at opening weekend check in; wait times are two hours or more.

What if I don’t have enough time to complete the full series of the MMR, Hepatitis B, or Varicella vaccinations?

For immunizations requiring more than one inoculation (such as measles, rubella, mumps, hepatitis B, and varicella), you must submit proof that you have begun the series and had as many of the inoculations (shots) as possible within the time frame/schedule specified on the Summer School Immunization Form. In this case, you are considered to be in compliance with the requirements for the current summer term.

My mother knows the dates I received my shots. Can she sign the form?

All immunization documentation and information must be certified by a health care provider or a medical records official. We cannot accept self-reported immunization information.

Can I submit a form from another school or from my Au Pair program instead of the Summer School Immunization Form?

You may submit alternate documentation such as a copy of your immunization records from another school you attended or a copy of your personal immunization card. This documentation MUST satisfy the following requirements:

- It must be in English.
- It must include the full dates of each immunization (i.e. month, day, and year).
- It must be certified by a health care provider or medical records official.
- It must demonstrate compliance with the Massachusetts and Harvard University immunizations regulations.

Alternate documentation that does not fulfill these requirements will not be accepted.

What if my doctor does not know the exact date I received the shot or does not have record of it?

Without the full dates of your vaccinations (including month, day, and year), your immunization history does not comply with Massachusetts and Harvard University regulations and your documentation cannot be accepted. If you cannot provide documentation of each required immunization, there are several of the diseases for which you can have a blood test that will show whether or not you are immune to them (measles, mumps, rubella, hepatitis B, and varicella). You would need to provide the REU Program with the proof of such tests. For the diseases that do not allow blood tests, you must take the immunizations again and provide the proof.

Do I need to complete a whole new form to submit my additional/updated shot information?

You should submit a new form, but should include only the NEW information. Check the box marked, "I have new information to add to the form I submitted earlier this summer.” Lastly, the signature of your health care provider or medical records official cannot be earlier than the date of your most recent vaccination in order for your form to be accepted.

Please upload your immunization form as soon as possible and no later than Friday, June 3, 2016.

Please keep a copy of this form for your own records.
**HARVARD SUMMER INTERN HOUSING**

2016 Immunization Form

Harvard SEAS REU Summer 2016

29 Oxford Street - Cambridge, MA 02139 - reu@seas.harvard.edu

In accordance with Massachusetts law, all interns living in Harvard Housing must have proof of immunization on file with the University. Please fill out your name, date of birth, and sex, and then give this form to your physician or University Health Services who will complete the rest.

**Exemption from MMR injection only if:**

A positive serological test (titer) for immunity to any of the above diseases is acceptable instead of immunizations (a history of the disease is not acceptable):

**Dates required:**

- Pos MEASLES titer: Month Day Year
- Pos RUBELLA titer: Month Day Year
- Pos MUMPS titer: Month Day Year

OR

- if born in the US before 1957, check here: □

**Varicella (Chickenpox):**

Two immunizations on or after the first birthday, at least 1 month* apart, on 01-MAR-1995 or later

**Exemption from Varicella injection only if:**

A positive serological test (titer) for immunity to Varicella or a certified history of the disease is acceptable instead of immunizations:

**Dates required:**

- Pos VARICELLA titer: Month Day Year
- OR Age at infection: Month Day Year
- OR Date of disease: Month Day Year

OR

- if born in the US before 1980, check here: □

**Tetanus-Diphtheria-Pertussis:** One dose of “Tdap” on 01-JAN-2005 or later. Vaccine must be Adacel, Boostrix, or ADULT acellular pertussis booster. No other vaccines can be accepted.

**Hepatitis B:**

Three immunizations, the first and second of which must be at least 1 month* apart; the third must be at least two months* after the second and four months* after the first. If Twinrix, check here: □

**OR Positive serological test**

- Positive Hepatitis B antibody: Month Day Year

**Meningococcal disease:**

Must be within the last 5 years. Students who will not live in Summer School housing may waive this requirement. To do so, the waiver form (available from the Summer School website) must be signed and submitted along with this form.

**I will not live in Summer School housing and I am waiving the requirement for the Meningococcal vaccine. I have signed and attached the state waiver form.**
