Team 7 Safety Inspection Report  -  Peter Duane team leader –

Inspected with Scott Slimmer, Lab Manager of Lewis Lab

Inspected in January and February - Report February 2014

All Labs in Maxwell Dworkin Building

1) Teaching labs – Safety Officer Xuan Liang

   Inspected Rooms B127, B125, B123, B121, and B112

   All are electronics teaching labs with computers and test equipment and no
   chemical usage. All were fine.

   Inspected Room G114 “Design Lab” all seems ok.

2) Professor Ham Labs – Safety Officer - Dongwan Ha,

   Inspected Room B129 – Laser and nontoxic gases and a few chemicals.

   Everything up to date and fine.

   Room B129B had some clutter and boxes

   Inspected Room 315 – ER guide – old type, needs update.

   Inspected Room 316 – ER guide not filled out yet.

   Room 316 had no sharps container for syringes, many syringes out on lab
   bench, some with caps off, some razor blades. Two peach jars with tea
   leaves(?) in water in them – prescription medicine in cabinet.

3) Zickler lab – Yannis Gkioulekas safety officer

   Computer vision lab – mostly photography equipment, 3 lasers not in use in
   The cabinet, no chemicals, everything looks good.
