NWest B-166 AV Instructions

The AV system in NWest B166 consists of a large flat screen TV, the remote control for the TV, VGA, and HDMI connections for a computer. There is also an AirMedia device that allows for wireless connection of any computer or mobile device to the TV, after downloading an applet to your device.

To use with the VGA connector:
1. Connect the **VGA cable** on the table to the VGA output of your computer, or the VGA/Mini Display Port adapter (dongle) for your Mac or newer PC not having a VGA connector.
2. Connect the audio cable, connected to the VGA cable, to the headphone output of your computer, even if you are not using audio.
3. Turn on your computer, turn on the TV.
4. On the remote control for the TV, press the **D-SUB** button to choose the VGA input on the TV to be displayed.

To use with the HDMI connector:
1. Connect the **HDMI** cable on the table to the HDMI output of your computer, or the HDMI/Mini Display Port adapter (dongle) for your Mac or newer PC not having an HDMI connector.
2. Turn on your computer, turn on the TV.
3. On the remote control for the TV, press the **HDMI2** button to choose that input on the TV for the image to be displayed.

***Note: If you need audio amplified through the TV, as well as the video displayed on the TV, use the VGA connector, with the adapter and the audio cable connected to your headphone jack.***

To use the AirMedia wireless computer connection:
1. Make sure the HDMI cable is connected between the AirMedia unit on the side wall and the side wall AV wall plate input. The LED should be lit green.
2. Turn on your computer or mobile device.
3. Turn on the TV.
4. On the remote control for the TV, press the **HDMI1** button to choose the HDMI input on the TV.
5. You will see the main AirMedia screen
6. Open a web browser (Safari, Firefox, Internet Explorer) and, if a Guest user, type the IP address. If you have already downloaded the Deployable App, you can go on your computer to “Applications>Creston folder>AirMedia folder>AirMedia icon”.

If you have any problems, contact Rich McGirr at 617-496-5049 or the Helpdesk in MD Room 109

**Please remember to Exit the AV system to turn off the equipment**
